Structural Collapse, Oakland, Alameda County

On 05/26/17 at 1029 hours, the California State Warning Center (CSWC) received a report of a structure collapse at a construction site in Oakland, Alameda County.

- Per Law Duty Officer (LDO), minor road closures were in place for streets bordering the collapsed building. No evacuation orders and no other law enforcement activity to report.
- Per the Coastal Duty Officer (CDO) and Fire Duty Officer (FDO), a total of ten people were briefly extricated from the site and transported to area hospitals with minor injuries. All injured parties have been accounted for.
- Oakland Fire Department will remain on scene until the site has been secured.
- There are no requests for state assistance at this time.

Train Derailment, French Camp, San Joaquin County, SPILL: 17-3720

On 05/26/17 at 1339 hours, the CSWC received a report from Union Pacific Railroad (UPRR) advising two tank cars derailed in the upright position at Milepost 86.8, French Camp, San Joaquin County.

- There were no injuries to crew members.
- The derailment was caused by a broken rail which did not impact the main line.
- Both tank cars were carrying an unknown amount of phosphoric acid. No release of hazardous materials occurred.
- The CSWC made all appropriate notifications per Hazardous Materials SOP.

SITUATION SUMMARY

2017 Statewide Winter Storms

Cal OES Coastal Region

Paul's Slide, State Route 1, Monterey County

Per Cal OES Coastal Duty Officer (CDO), as of 1300 hours on 05/25/17, Paul's Slide on State Route 1 has been closed to all traffic.

- Caltrans engineers report slide activity and the area has been closed in the interest of public safety.
- Assessment will commence and further details will be provided once released.
- All deliveries and local access previously scheduled have been suspended.

Mud Creek Slide, State Route 1, Monterey County

The Mud Creek area on State Route 1 sustained a major slide on the evening of 05/20/17, when over a million tons of rock and dirt fell down the slope continuing down to the ocean floor 250 feet off the shoreline.

- The Mud Creek area is ¼ mile in length, made up of five slides, four of which fell during this single incident and consolidated into one slide. The remaining slide now extends 1,500 feet in length over State Route 1 and is about 35 to 40 feet deep.
- Roadwork at Mud Creek was suspended and heavy equipment removed last week due to the threat of new slides and for safety of highway workers. Caltrans geologists and engineers plan to assess it further when this area stabilizes.
- There is no estimate when this section of State Route 1, approximately nine miles north of the San Luis Obispo/Monterey County line will re-open.

Pfeiffer Bridge Incident, Monterey County

California Highway Patrol (CHP) and Caltrans had a hard closure on the Pfeiffer Bridge on HWY 1 at mile marker 45.52 (SB Sycamore Canyon and the Bridge) due to a crack in the bridge. The bridge has been demolished so the road is closed and estimates for some access from the north is late September 2017.

- Backup air medical transport plans have been developed for medical emergencies through Cal OES Law Enforcement Branch.
- All businesses north of the Pfeiffer Canyon Bridge closure are open to the public.

River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:

- Solano County: Sacramento River at Rio Vista

Please see link for River Forecast Guidance - <http://www.cnrfc.noaa.gov/>

SITUATION SUMMARY

2017 Statewide Winter Storms

Cal OES Inland Region

River Forecast - The following river is forecast to meet or exceed Flood stage:

Mariposa County:

- Merced River at Yosemite at Pohono Bridge is forecast to exceed flood stage at 10.0 feet the morning of 05/30/17
 - Potential Impacts: Western portion of North Pines Campground, located at the east end of Yosemite Valley between the confluence of the Merced River and Tenaya Creek, begins to flood. Water rises to the base of the swinging bridge downstream from Chapel Meadow.

River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:

- Placer County: Truckee River at Truckee
- Alpine County: East Fork Carson River at Markleeville, West Fork Carson River at Woodfords

Please see link for River Forecast Guidance - <http://www.cnrfc.noaa.gov/>

Cal OES Southern Region

River Forecast - The following river is forecast to meet or exceed Flood stage:

Mono County:

- West Walker River at US 395 Below Little Walker is forecast to exceed flood stage at 6.0 feet the morning of 05/28/17.
 - Potential Impacts: Some minor flooding of lowlands, pastures, and rural roads.

Please see link for River Forecast Guidance - <http://www.cnrfc.noaa.gov/>

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

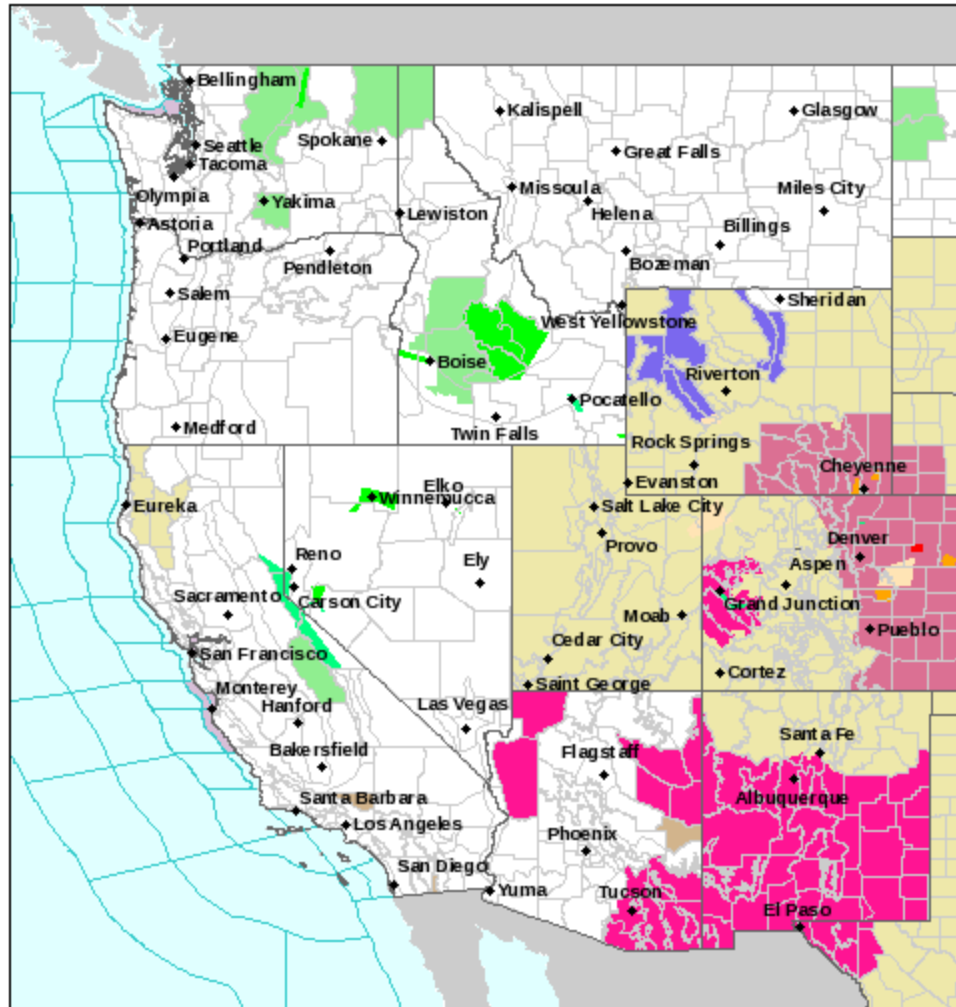

The low pressure trough that has been over the region in recent days will begin moving off to the east today as a Pacific high pressure ridge begins to build onshore. Afternoon cumulus buildups are expected again near the higher terrain, and there is a slight chance of showers and thunderstorms there. Winds will be fairly light today, with the exception of onshore and delta winds gusting to 20-30 mph. Temperatures will be near normal today. The high pressure will build overhead this weekend and produce warmer temperatures through Monday. There will still be buildups near the higher terrain and a small threat of afternoon and evening showers and thunderstorms each day. Light slope winds will prevail this weekend, with the exception of the daily coastal and delta winds. Low pressure approaching the coast will cause an increase in S-SW winds on Monday. By Tuesday the low will be close enough to the coast to produce more shower and thunderstorm activity and cooler temperatures, and this pattern will continue through Thursday.

SOUTHERN CALIFORNIA

A Pacific trough will continue to bring westerly winds of 20 to 30 mph with gusts to 50 mph to the wind prone mountain and desert areas through tonight. The trough will also maintain below normal temperatures and minimum humidity above 30% away from the deserts today. Maximum temperatures will be in the upper 50s and 60s across the mountains and 70s to low 80s in the valleys today. A ridge of high pressure will build into California from the southwest bringing significant warming and drying to the region Saturday through Monday. Temperatures will warm into the low to mid 90s and minimum humidity will drop into the teens and twenties Sunday and Monday. Winds will be light Saturday through Monday. A Pacific trough will drop down the West Coast bringing significant cooling and higher humidity to the area Tuesday through Thursday. Strong and gusty westerly winds will surface across the mountain ridges and desert passes Tuesday afternoon through the middle of next week. Isolated afternoon showers and thunderstorms will be possible over the Sierra next Wednesday and Thursday.

OF EMERGENCY SERVICES

Cal OES LAW ENFORCEMENT MISSIONS

Closed Cal OES Missions

- **2017-LAW-36011, 05/25/17, 1845 hours,** AFRCC reported a PLB activation at 34° 16.73', -117° 38.2', which plots to the Mt Baldy area of San Bernardino County. The emergency contact for the device owner reported the subject was on a solo day hike in the area. San Bernardino County located the subject by helicopter but high winds and darkness prevented a landing or hoist rescue. Sheriff SAR Ground teams walked into the subject and discovered that he had minor injuries to his ankle. Sheriff SAR personnel escorted the subject out to safety. He was medically checked by fire personnel but refused transport. **Mission Closed.**
- **2017-LAW-35909 5/22/17, 0732 hours,** Sacramento County Sheriff's Department (SCSD) is requesting SAR resources to locate a missing adult male who is presumed drowned east of Winter Island on the border of Pittsburg and Antioch. The MP was attempting to rescue his minor son from the water on Saturday afternoon and never resurfaced. The minor was successfully rescued by others. This is a joint operation with the USCG. SCSD SAR is requesting Solano SO resources (boat, side scan sonar and Dive Team) to assist. They also requested 2 water certified HRD K9's from CARDA. All resources will be briefed Tuesday, 05/23 at 0700 hours at the Delta Marina in Rio Vista. The Solano Team has accepted the mission and two CARDA K9 teams have been contacted and have accepted. **UPDATE:** 05/22, 1800 hours, SCSD SAR advised they developed information late today that suggests the search area is much larger than originally believed and, as a result, use of the side scan would be ineffective. They will utilize the responding Water Certified HRD K9's on local boats to attempt to narrow down the MP's location and will request the Solano SO Dive Team for the recovery if needed. Law Branch A/C Broughton will respond to the search. **Update:** 05/23/17, 1232 hours, SCSD SAR advised the K9 teams worked the water for approx. 1 hour but high winds forced the early cessation of search efforts. At this time there are no plans to resume search efforts. **Update: 05/24/17, 1526 hours,** SCSD SAR advised that earlier on 05/24/17, they detected and measured an image on their sonar they believe could be their MP. The location is at/near where he was reported submerging and at a depth of approx. 40'. SCSD SAR is requesting a Dive Team to assist locating and recovering his remains. The Contra Costa County Sheriff's Dept. Dive Team accepted the mission and will respond to the Delta Marina on Thursday, 05/25/17, at 0830 hours. **Update: 05/26/17, Divers checked the sonar image from the previous day, and another image, with negative results. Mission Closed.**
